

Notice

It has been observed that some 5th semester students for session 2022-25 are playing truant from College without any prior information. They avoid attending classes, nor do we have any information about their internship even they do not take part in other academic activities of College. Because of remaining absent from class, they fail to meet the prescribed 75% attendance requirement, in accordance with University norms.

Absence of such students from the class not only deprives them of enriching academic knowledge and developing their insights into subjects but also sets wrong precedent for their junior students.

Given the high quality and discipline-based teaching-learning environment, IMPACT Group of Colleges has created for the academic well-being of students, management has decided to take disciplinary action against such students who go in defiance of rules and regulations of College.

According to the decision, those careless, lackadaisical and rule-breaker students are being debarred from all academic activities of College. Even they will **not be allowed to take Mid Semester examination under Internal Assessment Marks**.

List of such students is being attached herewith.
