# KINESICS

Kinesics is the interpretation of body motion communication such as facial expressions and gestures, nonverbal behaviour related to movement of any part of the body or the body as a whole

# **Types of Kinesics**

**1. Gestures**

**2. Gesticulations**

**3. Facial Expressions**

**4. Eye Contact**

**5. Appearance**

# Categories of Kinesics

**Emblems**-Body movements that have direct translation to words.(eg OK)

**Illustrator**-Accent ,emphasizes,or reinforce words .  
(eg whale was big)

**Regulator**-Control the back and forth flow of speaking and listening.

**Display of feelings**:-Feelings are shown through face and body motions.

**Adaptor**-Way of adjusting to communication situation.
