

TIME LANGUAGE

By Shruti Singh

Assistant Professor

Journalism & Mass Communication

Time Language (Chronemics)

Time-based communication cues are known as chronemics and involve the use of time to convey non - verbal messages.

DEFINITION

- 1) Griffin (2000) defines chronemics as the study of the role of time in communication.
- 2) Chronemics is the study of human tempo as it is related to communication.(Lewis and Nick 2003)

THANK YOU
